O-Insights™
LoRaWAN Plugin

Overview:

O-Insights LoRa Plugin enables seamless communication between LoRaWan IoT Gateways and MOBOTIX HUB. This plugin facilitates the transfer of data from the Gateway to MOBOTIX HUB, allowing users to conveniently view the data in the Alarm Console and Maps using the O-Insights Maps Plugin.

By integrating LoRaWan devices with MOBOTIX HUB, this service enhances situational awareness, expands the range of IoT data sources, and enables efficient monitoring and response within the MOBOTIX HUB environment.

Minimum Server Requirements

CPU:

Intel® Core™ i5 or higher

RAM:

8GB or 16GB & more for large systems

Network:

Ethernet 100 Mbit or better

Hard Disk:

1 GB or more free
